WORK EXPERIENCE

Software Engineer Intern   May 2022 – Jun 2022

NumbersAPI | San Francisco, CA

- Launched a full- stack overhaul of *NumbersAPI,* a popular web API, as part of the app's transition from Node V10 (2012) to Python3 and Flask in collaboration with dev team
- Rewrote MVC components of the NumbersAPI RESTful resource, e.g., developing database model, refactoring model validations, and writing new controller and views to preserve same functionality with more modern coding paradigms
- Ensured test coverage throughout development by writing both unit and integration tests
- Rebuilt landing page using JavaScript, Jinja, and JQuery. Updated deprecated code, maintained same look and functionality of the original page while greatly reducing lines of code and improving readability

Software Engineer Intern   Dec 2021 – Jan 2022

ATMA Wellness Marketplace | San Francisco, CA

- Implemented dynamic UI input components that display based on previous user inputs. Improved UX by hiding irrelevant fields during sign-up process
- Utilized Git for version control, pull requests, and code reviews. Revised code based on CTO feedback
- Reviewed design docs to build responsive, pixel-perfect components to conform with Figma design specifications

Loan Coordinator   Feb 2013 – Feb 2015

Bank of Hawaii | Honolulu, HI

- Managed a high-volume, milestone-driven pipeline of between 80 and 120 mortgage applications
- Communicated deadlines and application progress between cross-functional teams with multiple stakeholders.
- Carefully reviewed and prepared financial and property documents: income & asset statements, appraisals, etc

Legislative Clerk   Jun 2010 – Aug 2012

Hawaii State Legislature | Honolulu, HI

- Drafted, formated, edited, and revised bills, resolutions, and certificates in order to meet pivotal milestones
- Provided clerical support to attorneys, analysts, and elected representatives

---
